

International Growth Week

SRB Chairman attends International Growth Conference in London at the invitation of International Growth Conference and London School of Economics which hosted the conference from Sep 22 to Sep 26 in London as Sindh's sole representative.

Growth Week is the International Growth Centre's annual conference, which brings together our worldwide network of leading researchers and policy-makers. It is an exciting opportunity to meet and discuss key growth issues affecting developing countries. The conference consisted of:

- Country sessions dedicated to each of our partner countries: Bangladesh, Ethiopia, Ghana, India (Bihar and Central), Liberia, Mozambique, Myanmar, Pakistan, Rwanda, Sierra Leone, South Sudan, Tanzania, Uganda and Zambia.
- Research programme sessions focused on the four main research themes of the IGC: State, Firms, Cities, and Energy.
- Framework sessions which were intended to set out the agenda for research and the opportunities for impact across a range of cross-cutting topics relevant to many countries: Elite Capture and Political Economy, Cities, Transforming the Public Sector, Management Capacity and Productivity, Taxation and Development, and The Gains from Trade.
